We do a lot of projects in Kindergarten and will be asking for help throughout the year with the items we will need. We send out a weekly newsletter and on that newsletter will have the supplies we will need for various activities we have coming up. We ask for help with these so that we can continue to do them with our classes. Examples of things we do each year: Valentine's Day mailboxes, butterfly habitats, Green Eggs and Ham, Apple Party, science experiments, discovery within the classroom, etc. Thank you in advance for helping us with these things as the time comes.
